

„You can use it for many purposes.“

Under this motto, we introduce you to the finished allround wagon :

- Through our changes now using hydraulic telescopic walls
- The variability of our system leads to the unrestricted usability in every logistic subarea

Convince yourself with our new video presentation at:

<https://qrco.de/bbIiX0>

Inner dimensions of the bridge LxBxH are: 9924mm x 2540mm x 2721mm

Outside dimensions of the car LxBxH are: 10289 x 2540mm x 2764mm

The total length including drawbar: 12000 mm

Finally, we want to give you another question along the way:

„Are you still strapping or are you already driving?“
